

GE CardioCap 5 with 5 Agent Gas Analysis - Fully Refurbished

The CardioCap/5 is a compact, all-in-one monitor designed for use in the operating room, ambulatory surgery unit, induction room and PACU. The CardioCap/5 offers full vital signs monitoring capabilities from the monitoring of oxygenation and circulation to advanced airway gas analysis and ventilation measurement with Patient Spirometry. The CardioCap/5 has an outstanding user interface, the trademark of all GE Healthcare monitors, making it easy use, easy to learn and the perfect partner for any anesthesia machine. CardioCap/5 networking options extend the capabilities to centralized monitoring and arrhythmia analysis.

Features:

- Outstanding user interface
- Hemodynamics
- ECG
- Impedance respiration
- Pulse oximetry (SpO₂)
- NIBP
- Temperature
- Airway Gases: CO₂ (N₂O), Patient O₂, N₂O
- Small footprint bedside monitor with large 10.4" active matrix color display
- Shows up to 6 waveforms
- Color-coded, prioritized alarms
- Waveform snapshot to store and recall waveform samples for later analysis
- On-line help for menu functions
- 24-hour graphical trends of all parameters
- Built-in back-up battery to handle sudden power down situations
- Wall mount, roll stand available for best workplace ergonomics

Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
