

## **GE MAC 1200 - Fully Refurbished**

The GE Marquette MAC 1200 Resting ECG machine is a comprehensive solution with practical features clinicians at smaller hospitals, clinics and physician offices will appreciate. The MAC 1200 is a compact 12-lead electrocardiograph designed for acquisition with or without analysis. The system can be configured as a standard electrocardiograph without analysis for facilities with minimal ECG requirements. The system can also be configured to incorporate the 12SL ECG analysis program. Adding the 12SL program creates an electrocardiograph with the industry leading interpretation program and measurements.

## **Features:**

- Comprehensive solution for ECG requirements.
- Waveform LCD display.
- Interpretive EKG.
- Full size paper reports.
- Portable with built-in battery.
- Measurements, interpretation and memory available in any combination.
- Simultaneous 12-lead ECG acquisition and analysis.
- Compact, lightweight design with carrying handle.
- Field upgradability.
- Easily accessible data which is stored digitally and formatted
- Muse CV two-way communication
- One-touch operation for acquisition, analysis, storage and printing
- 4 user-definable fields for customizing patient data entry and flexibility
- Waveform display allows rapid assessment of ECG rhythm and signal quality
- Width: 14.5 inches (370 mm)
- Height: 3.7 inches (94 mm)
- Depth: 12.6 inches (320 mm)
- Weight: 12.4 lbs (5.6 kg) with graphics display and battery
- Battery type: NiCad, 18V, 1.4 Ah
- Battery charge time: 4 hours

## Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
