## **DROP ARM CARE CLINER (NYLON CASTERS)**

The **Drop Arm Care Cliner (Nylon Casters)** is a versatile, patient-friendly chair designed to facilitate easy transfer and enhanced comfort, making it ideal for use in extended care, long-term care, and clinical settings. Its distinctive feature is the adjustable arms that can be lowered flush with the seat, providing a clear pathway for patient transfer and repositioning. The chair features a back height of 31.5 inches, a seat width of 21 inches, and a seat height of 21 inches, with a seat depth of 20 inches, supporting a weight capacity of up to 275 lbs. Equipped with manual recline and fixed padded drop-down armrests, it offers both comfort and functionality. The chair rolls smoothly on 5-inch nylon or steel casters, ensuring easy mobility across various environments. Overall, the Drop Arm Care Cliner combines practicality and comfort, making it an excellent choice for patient care in diverse healthcare settings.

## **BIODEX SOUND PRO 058-700 ULTRASOUND TABLE (REFURBISHED)**

The **BIODEX Sound Pro 058-700 Ultrasound Table (Refurbished)** is designed for effortless access and comfort during ultrasound exams, with an ergonomic, open-access layout that lets the sonographer work from all angles. A drops-down, side-releasable scanning cushion and flush side rails eliminate obstructions, while a generous 500-lb capacity and extra-wide top accommodate a wide range of patients, including bariatric cases. Key features include a cardiac drop-down cushion that releases from either side, the industry's largest cardiac scanning cutout (9.5" W x 15.75" L), and a fully adjustable Fowler position from 0 to 80 degrees with smooth, slide-free support. The table also offers motorized height, Trendelenburg/Reverse Trendelenburg, auto-level, and independent leg sections to simplify transfers and positioning, plus a central floor-lock for stability. A durable Naugahyde antimicrobial mattress cover and a user-friendly hand controller support seated or standing work, retractable foot holders, and overall design aimed at reducing strain while enhancing patient care.

## HAUSTED 4200 SERIES EXAM TABLE

The **Hausted 4200 Series Exam Table** is a versatile and functional piece of medical furniture designed to enhance patient care and convenience in clinical settings. Featuring three pass-through drawers accessible from both sides, this table ensures that essential supplies are always within easy reach, facilitating efficient workflow for healthcare providers. Additionally, it includes two storage drawers for extra organization, and a pull-out leg rest with an integrated treatment tray that provides added comfort and utility during examinations. The table is equipped with five-position continuous lock stirrups and a standard pelvic tilt feature, offering adaptability for various medical procedures. Its durable powder coat finish in Foghorn adds a sleek and professional appearance, complementing the practical design. With specifications such as an overall width of 27 inches and an extended length of 72 inches, the table accommodates a wide range of patient sizes, supporting a weight capacity of up to 500 lbs. The sturdy footstep, capable of bearing up to 800 lbs, adds to its robust construction. With a shipping weight of 330 lbs and the option for a replacement top (GF4200RT-XX), the Hausted 4200 Series Exam Table combines reliability, ease of use, and aesthetic appeal, making it a valuable addition to any medical examination room.

## WINCO VERŌ CARE CLINER, GAS BACK, FIXED ARMS, 5" CASTERS

The Winco Verō Care Cliner is designed with meticulous attention to detail, ensuring both comfort and functionality for its users. This particular model features a Gas Back mechanism, which allows for smooth adjustments, and is equipped with fixed arms of standard width, providing stable support. Its capability to recline into the Trendelenburg position adds a layer of versatility, catering to various medical and relaxation needs. The chair is mounted on durable 5" casters, making it easy to maneuver across different floor surfaces. With dimensions that include a 29.5-inch width, a 41-inch depth, and a 29-inch arm height, it offers ample space without compromising on comfort. The back height stands at 28.75 inches, and the seat measures 23.75 inches high and 22.5 inches wide, ensuring a comfortable seating area. Notably, this model can support up to 350lbs, making it a robust choice for a wide range of users. The combination of these features makes the Winco Verō Care Cliner a reliable and convenient option for healthcare settings or home use, where comfort and functionality are paramount.

## MIDMARK 630 BARRIER-FREE POWER PROCEDURE TABLE

No matter what type of procedures you perform, proper positioning is crucial to providing accessibility and flexibility at the point of care. Power height, back, foot, and tilt gives the Midmark® 630 virtually endless movement capabilities, allowing you to position patients correctly for the most effective procedure, while the adjustable height allows you to work in a position that is comfortable for you.

In a healthcare environment of increasing complexity and patient volume, workflow efficiency has never been more important. Timesaving features like one-button, multi-axis positioning, rotation, and auxiliary power gives you access to the patient, supplies and devices you need at the point of care to create the most efficient procedure zone.

Customize your procedures table, improving functionality and saving you valuable time. A variety of patient support accessories like adjustable headrests, arm systems, and articulating knee crutches provide maximum flexibility. Colors may vary.

## MIDMARK RITTER 222 BARRIER-FREE EXAM TABLE

The days of limited exam rooms for disabled patients are gone. With Ritter® Barrier-Free® tables, more of your exam rooms can be accessible to your special needs patients. This not only puts your patients at ease, but it also makes your practice more efficient.

Getting on an exam table can be an anxious, insecure moment, especially for elderly and special needs patients. The Ritter® 222 Barrier-Free® Table lowers to 18 inches from the floor, making it easier for patients to get on the table. This lower height helps eliminate excess strain on their backs, as well as, the backs of physicians and staff.

Once a patient is on the table, with a touch of the foot control, the Ritter® Barrier-Free® table delivers precise, smooth patient positioning with minimal effort on everyone's part. That goes a long way toward helping your patients – and you – feel relaxed.

Box-style exam tables have been the industry standard in exam rooms for over 50 years; however, they are inaccessible, uncomfortable, and inefficient. The choice is clear; Ritter® Barrier-Free® tables are the new industry standard with powered height and features that are functional and efficient. Colors may vary.

## MIDMARK RITTER 75L EXAM CHAIR

The **Midmark Ritter 75L Exam Chair** is a versatile and highly adjustable piece of medical equipment, designed to enhance patient comfort and improve efficiency in clinical settings. This exam chair features a range of movements including table up/down, tilt, foot up/down, and back up/down adjustments, allowing healthcare providers to easily position patients for various examinations and procedures. The chair also includes an adjustable headrest and hideaway adjustable stirrups, catering to a wide array of medical needs. For added functionality, it is equipped with a pull-out cysto pan, table paper holder, and table paper straps, ensuring cleanliness and convenience during use. The chair can be controlled via a foot switch or hand control, providing flexibility for the operator. Accessory side rails offer additional support for attaching medical instruments or accessories. With a width of 28 inches at the seat and up to 26 inches at the back, the chair can extend up to 83 inches in length with both the foot section and headrest extended. It offers a height range from a minimum of 19 inches to a maximum of 40 inches, accommodating

a diverse range of patient heights and medical procedures. The chair is robust, with a patient load rating of 450 pounds, and includes a paper roll holder that accommodates an 18-inch by 3.5-inch paper roll, ensuring it meets the practical needs of busy medical environments. Colors may vary.
