HOSPITAL BEDS

Patient care and comfort are top priorities for hospitals and ambulatory surgery centers. Auxo Medical provides the most respected brands of hospital beds for all medical center needs. This includes many models from [Hill-Rom](#) and other popular hospital bed manufacturers.

Offering birthing beds, surgery center beds, and full-featured patient care beds, Auxo Medical offers products for every need and budget. In addition, these medical beds are versatile and durable. Furthermore, our selection of beds offers easy to use controls, dual locking brakes, bed exit alert systems, visual safety reminders, and multi-position functionality. Easy to transport and accessible from all sides. Our hospital beds offer amazing versatility when it comes to patient care and monitoring.

Our catalog consists of brand new, reconditioned and refurbished equipment. Would you like to filter the equipment by:

REFURBISHED

STRYKER NARA INFANT BASSINET

The **Stryker Nara Infant Bassinet** is a state-of-the-art nursery solution designed to deliver maximum safety, comfort, and convenience for newborn care. Its modern, ergonomic design features smooth-rolling casters for effortless bedside mobility and an adjustable height mechanism to optimize caregiver accessibility and interaction. Crafted with transparent 360° panels, it provides unobstructed visibility of the infant from all angles, fostering peace of mind for parents and caregivers alike. The soft, cushioned sleeping surface offers a secure and comfortable environment for babies, while durable, easy-to-clean surfaces promote hygiene and sanitation. Integrated storage compartments ensure essential items like diapers and wipes are always within arm's reach, streamlining workflows. Perfect for hospitals and maternity centers, the Stryker Nara Bassinet combines thoughtful design with practical features to enhance newborn safety and caregiver efficiency, making it an essential asset in any nursery or maternity ward.

HILL-ROM 1000 MEDICAL SURGICAL HOSPITAL BED

Experience a transformative approach to patient care with the **Hill-Rom 1000 Medical Surgical Hospital Bed**, a pinnacle of healthcare innovation designed to optimize patient recovery and streamline caregiver operations. With advanced safety features such as side rails, bed exit alarms, and adjustable configurations, this bed minimizes risks associated with patient mobility and ensures a secure environment for both patients and healthcare professionals. The ergonomic design, coupled with intuitive controls, allows caregivers to efficiently manage patient positioning, deliver medical treatments, and monitor vital signs, all while maintaining comfort and reducing physical strain. The Hill-Rom 1000 is equipped with electric controls enabling precise adjustments for patient comfort, a contouring foam mattress to alleviate pressure points, and robust construction for enduring use in dynamic hospital environments. Additionally, its capability to adopt positions like the Trendelenburg and cardiac chair, as well as lateral rotation, addresses various medical needs, enhancing patient care outcomes. This bed represents not just a piece of equipment, but a comprehensive solution for modern medical facilities aiming to deliver superior patient care and improve overall healthcare

delivery.

COMPOSITE OVERBED TABLE, NON-TILT

The **Graham Field Composite Overbed Table, Non-Tilt**, offers a blend of functionality and durability, tailored to meet the needs of healthcare settings or home use. Featuring a molded composite tabletop, this table is a superior alternative to traditional wood, avoiding common issues like cracking or peeling. Its surface is not only easy to clean but also resistant to moisture, ensuring hygiene and longevity. The table height can be adjusted infinitely from 28.3 inches to 41.7 inches, accommodating various user needs. Its chrome-plated "H" base and column not only enhance the table's aesthetic appeal but also contribute to its sturdiness. Mobility is facilitated by twin-wheel swivel casters that ensure smooth rolling, including two locking casters for stability when needed. Designed to support up to 50 lbs. of dispersed weight and compliant with HCPCS code: E0274, this table combines practicality with safety. Additionally, it comes with a one-year warranty, providing further assurance of its quality and durability.

LOW EXTENDED BASE OVERBED TABLE, 3DL RAISED EDGE

The **Low Extended Base Overbed Table with a 3DL Raised Edge** is an essential piece of furniture designed with versatility and functionality in mind. It offers a seamless height adjustment feature that ranges between 30" and 43", catering to various needs and preferences. This table is equipped with twin-wheel swivel casters that ensure a smooth and easy movement across different surfaces; two of these casters are lockable for stability, while the other two allow for mobility. The table top is available in a selection of colors as shown on the color chart, featuring a 3DL Raised Edge for added safety and convenience. Its sturdy grey epoxy "H" base and column not only provide a sleek and modern aesthetic but also guarantee durability over time. This overbed table is designed to meet the specific requirements of HCPCS code: E0274, supporting up to 40 lbs. of dispersed weight, making it a reliable choice for various settings. Its dimensions and weight capacity ensure it can accommodate a wide range of items safely. With a comprehensive one-year warranty, this table represents a robust and stylish solution for those in need of a functional overbed table.

LOW EXTENDED BASE OVERBED TABLE, LAMINATE

The **Low Extended Base Overbed Table with Laminate top** is a versatile and durable piece of furniture designed to enhance the comfort and convenience of those requiring bed rest or needing a work surface while seated. This table features an infinitely adjustable height range from 30 to 43 inches, catering to various needs and bed heights. Its twin-wheel swivel casters ensure smooth mobility, with two locking and two non-locking casters for stability when stationary. Users can personalize their table with a choice of laminate tops available in different colors, all constructed from a 3/4" particle-board core with durable plastic edge molding. The grey epoxy "H" base and column not only add to the aesthetic appeal but also ensure durability. This table is designed to meet the requirements of HCPCS code: E0274, supporting up to 40 lbs. of dispersed weight, making it both functional and reliable. With a warranty of one year, dimensions accommodating a variety of spaces and needs, and a dispersed weight capacity of 100 lbs, this overbed table stands out for its practicality and quality.

LOW BASE OVERBED TABLE, LAMINATE

The **Low Base Overbed Table with Laminate top** is an adaptable and durable medical accessory designed to provide convenience and support for individuals requiring bedside assistance. Featuring an adjustable height that ranges from 28 inches to 40 inches, this table can easily accommodate various bed heights and user preferences. Its smooth twin-wheel swivel casters ensure effortless mobility, with two locking and two non-locking casters for stability when stationary. The table boasts a sturdy laminate top available in multiple colors, made from a 3/4" particle-board core with durable plastic edge molding, ensuring longevity and ease of cleaning. The grey epoxy "H" base and column not only add to the aesthetic appeal but also contribute to the table's overall durability. This table meets the requirements of HCPCS code: E0274, supporting up to 40 lbs. of dispersed weight, making it a versatile tool in healthcare settings. With dimensions thoughtfully designed to fit a variety of spaces, including a base height of less than 2.5 inches to slide under most beds, and a one-year warranty, this overbed table represents a blend of functionality, design, and durability.
