HOSPITAL BEDS

Patient care and comfort are top priorities for hospitals and ambulatory surgery centers. Auxo Medical provides the most respected brands of hospital beds for all medical center needs. This includes many models from [Hill-Rom](#) and other popular hospital bed manufacturers.

Offering birthing beds, surgery center beds, and full-featured patient care beds, Auxo Medical offers products for every need and budget. In addition, these medical beds are versatile and durable. Furthermore, our selection of beds offers easy to use controls, dual locking brakes, bed exit alert systems, visual safety reminders, and multi-position functionality. Easy to transport and accessible from all sides. Our hospital beds offer amazing versatility when it comes to patient care and monitoring.

Our catalog consists of brand new, reconditioned and refurbished equipment. Would you like to filter the equipment by:

REFURBISHED**STRYKER NARA INFANT BASSINET**

The **Stryker Nara Infant Bassinet** is a state-of-the-art nursery solution designed to deliver maximum safety, comfort, and convenience for newborn care. Its modern, ergonomic design features smooth-rolling casters for effortless bedside mobility and an adjustable height mechanism to optimize caregiver accessibility and interaction. Crafted with transparent 360° panels, it provides unobstructed visibility of the infant from all angles, fostering peace of mind for parents and caregivers alike. The soft, cushioned sleeping surface offers a secure and comfortable environment for babies, while durable, easy-to-clean surfaces promote hygiene and sanitation. Integrated storage compartments ensure essential items like diapers and wipes are always within arm's reach, streamlining workflows. Perfect for hospitals and maternity centers, the Stryker Nara Bassinet combines thoughtful design with practical features to enhance newborn safety and caregiver efficiency, making it an essential asset in any nursery or maternity ward.

**HILL-ROM 1000 MEDICAL SURGICAL HOSPITAL BED**

Experience a transformative approach to patient care with the **Hill-Rom 1000 Medical Surgical Hospital Bed**, a pinnacle of healthcare innovation designed to optimize patient recovery and streamline caregiver operations. With advanced safety features such as side rails, bed exit alarms, and adjustable configurations, this bed minimizes risks associated with patient mobility and ensures a secure environment for both patients and healthcare professionals. The ergonomic design, coupled with intuitive controls, allows caregivers to efficiently manage patient positioning, deliver medical treatments, and monitor vital signs, all while maintaining comfort and reducing physical strain. The Hill-Rom 1000 is equipped with electric controls enabling precise adjustments for patient comfort, a contouring foam mattress to alleviate pressure points, and robust construction for enduring use in dynamic hospital environments. Additionally, its capability to adopt positions like the Trendelenburg and cardiac chair, as well as lateral rotation, addresses various medical needs, enhancing patient care outcomes. This bed represents not just a piece of equipment, but a comprehensive solution for modern medical facilities.

aiming to deliver superior patient care and improve overall healthcare delivery.
