HOSPITAL GRADE POWER STRIPS

Hospital-grade power strips and hubs are specialized electrical devices designed to provide reliable, safe, and efficient power distribution within healthcare environments. Built to meet rigorous safety standards, these power strips feature heavy-duty construction, grounding, and surge protection to prevent electrical faults and ensure patient safety. They often include multiple outlets and hubs, allowing healthcare providers to power and organize multiple medical devices, monitors, and equipment from a single source. Designed with durability and hygiene in mind, hospital-grade power strips and hubs are resistant to cleaning agents, corrosion, and wear, making them essential components for maintaining a safe and organized medical workspace.

Our catalog consists of brand new, reconditioned and refurbished equipment. Would you like to filter the equipment by:

TRIPP LITE PS-415-HG-OEM 4 OUTLETS POWER STRIP 120V INPUT VOLTAGE 1800 W MAXIMUM POWER 15 FT. CORD LENGTH

The **Tripp Lite PS-415-HG-OEM Power Strip** is a high-quality, hospital-grade power distribution solution designed for use in medical environments such as operating rooms, patient care areas, and mobile workstations. Equipped with four NEMA 5-15R hospital-grade receptacles and a NEMA 5-15P-HG hospital-grade plug, it delivers reliable power at a maximum of 1800 watts with an input voltage of 120V. Its 15-foot cord provides ample flexibility for positioning the power strip near critical equipment like IV poles, crash carts, and medical carts, ensuring safety and convenience. Featuring antimicrobial protection, it helps prevent the growth of bacteria, fungi, viruses, and mold, promoting a hygienic environment. The UL 1363A certification confirms its compliance with safety standards, while the switchless design prevents accidental shutdowns of essential devices. Covered by a lifetime limited warranty, this power strip offers durable, dependable power management tailored for healthcare settings.

WIREMOLD MEDICAL GRADE POWER STRIP, 6 OUTLETS, 15A, 3KA, 15' CORD

The **Wiremold Medical Grade Power Strip** is a reliable and essential device designed specifically for healthcare environments. Featuring six outlets, a 15-amp capacity, this power strip ensures the safety and protection of critical medical equipment from power surges and electrical anomalies. Its 15-foot cord provides convenient reach within medical settings, while the aluminum construction offers durability and resistance to cleaning agents. The unit includes a snap/slide mounting option for flexible installation, and its single row of outlets simplifies organization and access. With a voltage rating of 125V and a 5-15 receptacle and plug configuration, this power strip is rated for 60Hz operation and complies with medical-grade standards, making it a safe, durable, and efficient solution for powering sensitive healthcare devices.

POWERMATE HUB OUTLET - 15 AMP SPECIAL PURPOSE RELOCATABLE POWER TAP (SPRPT)

The **PowerMATE® 15 Amp Special Purpose Relocatable Power Tap (SPRPT)** is UL1363A-recognized for safe use in patient care areas, delivering flexible, compliant power distribution with hospital-grade outlets, a 15-foot 14 AWG power cord, and a drip guard. Its locking nut enables permanent IV pole mounting, while cord management and enhanced mobility support convenient access to outlets across the facility. This unit features a 15A/125V circuit, gray hospital-grade receptacles (US NEMA 5-15R), and a compact footprint (5.65" H x 5.28" W x 3.27" D) weighing 3.02 lbs, making it a versatile solution for regulatory-compliant power in clinical environments. Patent-pending design adds further value, with durable components and mounting flexibility for safe, reliable use.
