ETHICON E705R LAPAROSCOPIC ENDOPATH® NEEDLE HOLDER, 30CM X 5MM

Ethicon E705R Laparoscopic ENDOPATH Needle Holder (30 cm, 5 mm) is a precision laparoscopic instrument designed for secure needle handling and accurate suturing in minimally invasive surgery. The 30 cm shaft provides extended reach in pelvic, abdominal, and thoracic procedures, while the 5 mm instrument diameter ensures compatibility with standard laparoscopic trocars. The needle holder features a smooth, robust locking mechanism and optimized jaw geometry for secure grip on a variety of suture materials, helping to improve control and user ergonomics in delicate tissue handling. Durable construction and high-quality stainless steel deliver reliable performance through repeated sterilizations, making it a dependable choice for surgeons performing complex minimally invasive procedures.

STRYKER SYSTEM 8 SAGITTAL SAW, CHARGER, BATTERY

The **Stryker SYSTEM 8 Sagittal Saw package** includes the SYSTEM 8 Sagittal Saw (8208-000-000), the SYSTEM 8 Charger (7110-120-000), a System 8 Small Non-Sterile Battery (30-day warranty) (8212-000-000), and the Safedge 2108 Sagittal Blade for Sternum Revision (2108-125-000). This compact, integrated set provides the essential components for sagittal craniectomy or sternum revision procedures, delivering reliable power delivery, recharging capability, and compatible blades to support precise, controlled oscillating sawing. The non-sterile battery and quick-connect charger are designed for efficient reuse in the clinical setting, while the Safedge blade ensures safe, smooth cutting performance during complex resections.

STRYKER CAST SAW WITH VACUUM

The reconditioned **Stryker 940 Cast Cutter and 986 Cast Cutter Vacuum combo** (Stryker Cast Saw and Vacuum) offers a reliable and efficient solution for cast removal procedures. The Stryker 940 Cast Saw features dual-speed cutting, a compact design for enhanced maneuverability, and three interchangeable blades to handle various cast types, all with compatibility for independent operation or integration with the 986 Vacuum. The Stryker 986 Vacuum complements the saw with high suction power, a wheeled stand for easy mobility, and quick, straightforward filter replacement to maintain hygiene and performance. Backed by a 6-month warranty, this system provides healthcare providers with a durable, user-friendly, and hygienic approach to cast removal.

STRYKER SYSTEM 8 SMALL BONE SMALL JOINT PACKAGE

The System 8 family was developed through intense collaboration with orthopedic surgeons and hospital personnel to address the intricate issues of the current healthcare setting. Enhanced ergonomics offer surgeons a more comfortable, neutral wrist stance, while textured sections supply a sturdier grip. A rapid, efficient keyless drill chuck, equipped with a secondary locking system, counters any loosening. It also uses advanced materials and coatings on pin collets to avoid common issues such as sticking and slipping. The handpieces are designed for active washing - they can be briefly submerged for cleaning before sterilization.
