

Philips HeartStart FRX Defibrillator - Fully Refurbished

Philips Healthcare is the largest manufacturer of AEDs in the world, and their experience shows in the craftsmanship of each of their products. Each unit also features a “Quick Shock” capability, which can save precious seconds in the moments between administering CPR and applying a charge to the chest. The first and only AED available without a prescription, the HeartStart is designed to be the easiest to set up and use and the most reliable defibrillator available. Our innovative technology, based on extensive research and user feedback, has produced a defibrillator so easy to use that you can potentially save the life of a coworker, friend, or anyone else stricken with sudden cardiac arrest.

- Product Dimensions: 8.5" x 2.75" x 7.5"

Additional Options:

- Extra Adult SMART Pads
- Extra Battery
- Infant/Child SMART Pads
- Wall-Mounted Cabinet

Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
