

Alaris 8000 Point Of Care - Fully Refurbished

The Alaris 8000 PC Point-of-Care Unit is the core of the Alaris System, which provides a common user interface for programming the infusion and monitoring modules, helping to reduce complexity at the point of care. The Alaris System is formerly known as the Medley System, which is a modular infusion and monitoring system designed to provide SpO2 monitoring capabilities and accurate, automated infusion of a broad range of intravascular fluids, medications and blood products.

Features:

- Battery Operation: Battery run time is a function of the number of modules attached and module activity.
- Communication Data Port: RS-232 with an RJ45 connector
- Electronic Memory:
 - System configuration parameters stored in volatile memory are retained for at least 6 months by an internal backup lithium battery
 - Module specific parameters are stored for 8 hours when system is turned off.
- Anesthesia Mode
- Battery Run Time Display
- Concentration Limits Data Set
- Dose Checking
- Guardrails® Safety Software
- Patient ID Entry

Specs:

- Power Requirements: 100-240V, 50/60 Hz, 150VA Max
- Dimensions: 6.9"W x 8.8"H x 9"D including pole clamp
- Weight: 7.2 lbs.

Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
