

Edan H100B - Fully Refurbished

As a handheld pulse oximeter, H100B is designed to serve the needs of both long-term monitoring and spot check. The H100B Pulse Oximeter provides a simple universal tool for patient monitoring - from spot checks to continuous monitoring. All monitoring data can be transferred to PC for storage, management, review, and printing. It's dedicated to offer reliable, accurate, and sensitive measurement of blood oxygen saturation under even harsh conditions, such as in hospitals, intra-hospital transport, and other hospital grade facilities.

Features:

- FDA Approved.
- RTC (Real Time Clock) display.
- Backlight control and automatic power-off function for power saving.
- SpO₂ and Pulse Rate Measurement.
- Display numeric and Waveform of SpO₂ simultaneously.
- Long battery life - up to 48 Hours on 4 "AA" or 36 Hours on Ni-MH rechargeable batteries.
- Powerful data storage capacity.
- Up to 100 IDs and 300 hours data storage capability for continuous monitoring.
- Data can be transferred to PC for storage, review, and printing.
- The latest 10 minutes trend graph and table of SpO₂ and Pulse Rate can be reviewed in the screen.
- Audible and visible alarm capability (adjustable).
- Pulse-tone modulation (Pitch Tone).
- LCD display with backlight control
- Dual work modes: monitoring & spot check
- Trend review
- Size: 160 mm (L) x 70 mm (W) x 37.6 mm (H).
- Weight: 165 g (without batteries).
- SpO₂: 0 - 100%.
- Pulse Rate: 25 - 300 bpm.

Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
