GE Mac 5000 ECG - Fully Refurbished

MAC® 5000, GE's premier ECG system, delivers advanced disease management capabilities through its vast collection of proven algorithms. The MAC 5000 system offers the sophistication required for advanced ECG applications, while its ease of use extends this level of performance to the broadest range of users possible. And it's part of the complete GE suite of networked, non-invasive testing solutions designed to maximize patient throughput and department productivity. Add the stress option, and you combine the industry's leading high performance resting ECG system with comprehensive, equally advanced exercise-testing capabilities in a single, compact system.

Features:

- Mac 5000
- Cam 14 Module
- Module Cable
- Battery
- Set of Leads
- Interpretive Electrocardiograph with 12-lead analysis
- Waveform Display
- Full-sized Paper Format
- Alphanumeric Keypad
- Advanced algorithms set the standard in ECG analysis and interpretation.
- Easy-to-use applications and features streamline productivity and workflow.
- Seamless connectivity to the MUSE® Cardiology Information System speeds data storage and ECG retrieval.
- Comprehensive training helps maximize your return on investments
- Width: 15 in (38.1 cm)
- Depth: 13.8 in (35.1 cm)
- Height: 3.7 in (9.4 cm)
- Weight: Approximately 6.8 kg (15 lbs) including battery, without paper

Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
