

## SSI Ultrasonic Cleaning Systems- Fully Refurbished

SSI's Ultrasonic Cleaning systems are designed to solve your most difficult cleaning problems. We offer a complete range of ultrasonic systems from laboratory bench top models to fully automated conveyor systems – all of which are engineered and fabricated in-house. Incorporating Ultrabraz® transducers, all SSI systems are designed for high performance, longevity, economy, and versatility. SSI offers both a full line of standard equipment, as well as specifically designed customer packages to meet the needs of a particular market or customer application.

### Features:

- Customizable Features
- Heavy Gauge 300 Series Stainless Steel
- Proprietary ULTRABRAZE® Transducers
- Solid State Ultrasonic Generators
- Frequency of 27 or 40kHz
- High Watt Density
- Top Flange for Drop-In Mounting on Some Models
- Thermostatically Controlled Electric Heater
- Thermal Insulation
- Pump and Filtration Systems
- Timers
- Sound Insulation
- Stainless Steel Baskets and Trays
- Custom Sizes
- Rugged construction for long-term dependability
- Large selection of standard capacities
- Custom engineering available to meet any requirements
- Long-life performance at peak intensity
- Safety Interlocked Cabinet Door
- PLC Controlled
- Rear Control Panel with Operator Interface Terminal (OIT)
- Automatic Fill and Drain
- Selectable Liquid Level

### Why purchase Auxo Medical Reconditioned Biomedical Equipment?

Auxo thoroughly inspects and re-certifies all of its reconditioned biomedical equipment. Batteries are checked or replaced, and each unit is cosmetically repaired. Calibrations are made and all safety inspections will be completed. In most cases our equipment warranties meets or exceeds those of the OEM.
