Anesthesia Monitors

Order Now! Call 1-888-728-8448 Online www.auxomedical.com

We are pleased to announce that we can now service, repair and maintain your **anesthesia equipment!**

We are happy to provide you with solutions to best support your needs regardless of if they are biomedical, sterilization and now anesthesia.

ANESTHESIA

Biomedical & Sterile Processing

At Auxo Medical, we're always looking to expand our service and preventative maintenance capabilities to better serve you and keep your patients safe.

Biomedical Equipment

We provide a full line of Biomedical preventative maintenance, repairs, and calibrations onsite to keep you operating under NFPA99 standards and AAMI recommendations.

Sterile Processing

Our Specialty is sterilization and keeping your facility operating under joint commission standards.

We offer a variety of preventative maintenance programs that keeps your capital equipment running with little to zero down time.

We have the expertise to provide the equipment you need, the reliability to build a lasting relationship, and the responsiveness and services you need and expect.

Biolight AnyView Modular Patient Monitor: A5

The Biolight A5 patient monitor is a versatile patient monitor, capable of being utilized in virtually any area of your healthcare facility. The large 13.75" TFT Color Display makes viewing patient data easy. The Biolight A5 comes standard with the EMS1 parameter module, which includes the following parameters: ECG (3 or 5 lead), BLT Digital SpO2, NIBP, Pulse Rate, Temp, Invasive BP (x2)

- Global-Leading all-in-one module with display
- Built-in battery and thermal printer
- Standard model includes EMS1 Module with BLT Digital SpO2, Pulse Rate, ECG (3 or 5 Lead), NIBP
- Large, Anti-glare color TFT-LCD display
- Powerful measurement, ergonomic and flexible design
- Fanless cooling system, which keeps the monitor working quietly
- Dozens of parameters available with a variety modules assembled as needed
- Easily upgradeable, saving potential monitor replacement cost

CardioCap 5 with 5 Agent Gas Analysis

The Cardiacap/5 is a compact, all-in-one monitor designed for use in the operating room, ambulatory surgery unit, induction room and PACU. The Cardiacap/5 offers full vital signs monitoring capabilities from the monitoring of oxygenation and circulation to advanced airway gas analysis and ventilation measurement with Patient Spirometry.

Cardiacap/5 networking options extend the capabilities to centralized monitoring and arrhythmia analysis.

The Cardiacap/5 has an outstanding user interface, the trademark of all GE Healthcare monitors, making it easy use, easy to learn and the perfect partner for any anesthesia machine.

GE™ CardioCap 5 monitor Standard features and Configurations include:

- Outstanding user interface
- Hemodynamics- ECG
- Impedance respiration - Pulse oximetry (SpO2)
- NIBP- Temperature
- Airway Gases: CO2 (N2O), Patient O2, N2O

Datascope Passport 2 With 5 Gas Module

The Gas Module II adds state-of-the-art gas monitoring and analysis capabilities to the Datascope vital signs monitors. The Gas Module II with optional Spirometry measures airway pressures and lung volumes directly at the patient's airway. This data, along the loops and numeric data that you need can be displayed on the Spectrum OR™. The Gas Module II is a breath-by-breath gas analyzer, designed to meet the comprehensive anesthesia monitoring requirements of virtually every hospital and freestanding surgical center - whatever its size, specialty, or patient base.

Features and Benefits:

- Compact and light weight
- Provides identification and quantification of:
 - O₂
 - CO₂
 - N₂O
 - Halothane
 - Isoflurane
 - Sevoflurane
 - Desflurane
 - Enflurane
- Fully integrated into Passport 2, Spectrum and Spectrum OR user-interface and displays.
- Breath-by-breath Fast O2, CO2 and N2O monitoring with automatic or manually controlled measurement of five anesthetic agents. In addition, MAC values can be displayed on the Spectrum OR.
- Optional Spirometry measures patient's airway pressures and lung volumes. The numeric data and loops can be displayed on the Spectrum OR.
- Ideal for all environments

Condition	Refurbished
-----------	-------------

Datascope Passport V w/ Gas Module III

The Passport V offers a comprehensive range of options that make it well-suited for most hospital departments. The flexible feature-set includes your choice of CO₂ and SpO₂ technologies. Additional offerings such as multiple invasive pressures, external device interfacing and a secondary display solution are also available for increased monitoring of your more critical patients.

The Passport V has a straightforward and predictable interface, enabling you to easily perform functions and optimize the presentation of patient information. The large, vibrant display with vivid colors allows you to quickly assess patient data. Passport V features single-touch quick action keys and a Navigator Knob used to swiftly move the cursor within and between menus.

Features:

- 12.1" color LCD
- 3 to 8 waveforms with automatic configuration
- Enhanced numerics mode
- 3 or 5-lead ECG with or without ESU noise rejection
- Non-invasive blood pressure
- Dual invasive pressures
- Masimo SET[®] SpO₂
- Lead-selectable respiration
- Continuous temperature
- Drug calculations
- 96 hours of graphic and list trends
- 128 minutes of Oxy-CRG trends
- Remote view with multi-bed alarm notification
- ECG and IBP analog output

Condition	Refurbished
-----------	-------------

Datex S5

A complete monitor for anesthesia, the Datex-Ohmeda S/5 anesthesia monitor is a multi-parameter monitor. The Datex-Ohmeda S/5 anesthesia monitor features a large screen for easy viewing in the operating room. It is an ideal monitor for any setting, including the hospital, surgery center, small OR and recovery.

Features Datex-Ohmeda S/5 anesthesia monitor:

- Color Screen
- ECG
- NiBP - Non-Invasive Blood Pressure
- Invasive Blood Pressure
- Temp
- SpO₂ (pulse oximetry) TruTrak+ M-OSAT module
- EtCO₂ - 5 Agent Gas analysis to monitor Sevoflurane & Desflurane agents
- Printer

Condition	Refurbished
-----------	-------------

Mindray DPM 7 w/ Compact Gas Module

Mindray DPM7 offers a broad range of patient monitoring capabilities for the mid to high acuity environment. The DPM7 platform offers the functionality to meet the demands of the ICU and OR, such as multi-vector Arrhythmia and ST analysis, Cardiac Output (CO), Continuous Cardiac Output (CCO/SVO₂), CO₂, up to 8 invasive blood pressures, 5-agent multi-gas analysis with auto-ID and data storage. The high resolution touchscreen is standard on the DPM7 and provides exceptional visibility and usability for the clinician. Refurbished units currently available from overstockme.com

Features & Benefits:•DPM7 with a 17" touchscreen display to provide the superior flexibility you want when managing your patients•Standard touchscreen interface provides a fast and convenient means of performing all monitor functions•Built-in, 3-trace recorder comes standard to meet your documentation needs•Select from either conventional or Microstream[®] ETCO₂ to obtain fast, simple and accurate CO₂ results•Multi-gas analysis module utilizes a sidestream method that automatically measures and identifies ETCO₂, N₂O, O₂ and 5 anesthetic agents, and calculates MAC•Ideal for use by the anesthesiologist, surgeon or perfusionist•Independent display capability (DPM7 only) allows separate views, depending on the patient data you're most interested in

Standard Features:•3/5-lead ECG•Non-invasive blood pressure•Masimo SET[®] SpO₂•Pulse rate•Respiration•Dual-channel invasive blood pressure•Dual-channel temperature•Lithium ion battery (2 for DPM7)•Integrated recorder

Condition	Refurbished

Mindray Gas Module 3

The Gas Module 3 incorporates improved Artema technology that enables respiratory gas analysis, displayed on our Passport[™] V, V-Series, and Spectrum[™] monitors - already standards of comprehensive vital signs monitoring excellence worldwide.

The Gas Module 3 delivers state-of-the-art gas analysis capabilities: identification and measurement of inspired and expired O₂, CO₂, N₂O, and any one of the following five anesthetic agents - Isoflurane, Sevoflurane, Desflurane, Halothane, and Enflurane. Providing impressive capabilities and highly reliable performance, this leading-edge breath-by-breath multi-gas analyzer was designed to meet the comprehensive anesthesia monitoring requirements of virtually every hospital - whatever its size, specialty, or patient base.

Did you know that we provide **maintenance and service** for every piece of equipment listed in this catalog?

Mindray Passport 12 with Multigas O2, IBP, Cardiac Output

The Passport 12, an inspired result of ingenuity and efficiency offering a modular approach to the traditional configured multi-parameter monitor.

Passport 12 extends beyond just the device itself by offering integrated HL7 and DIAP communication protocols.

Wired and wireless networking capabilities can also be integrated, enabling connectivity to the DPM Central Station and Panorama Patient Monitoring System for a centralized patient data system.

Delivering enhanced capability, more optional features and extraordinary value, the Passport 12 fits your acute-care monitoring needs.

Features

- 12" high resolution touchscreen display
- Up to 8 waveforms
- Standard features include 3 or 5-lead ECG, Nellcor SpO2, 2 IBP, NIBP, respiration, temperature, integrated recorder
- Optional Masimo SpO2 available
- Included Multigas with O2, Invasive Pressures and Cardiac Output Module
- Available ST and arrhythmia analysis
- Extensive data storage capability for trend data, alarms, events, NIBP measurements and up to 48 hours of full disclosure
- Available wireless 2.4 Ghz (802.11b/g/n)
- Connects to DPM Central Station or Panorama® Patient Monitoring Network
- Integrated HL7 and DIAP protocol interfaces
- Compatible with Mindray eGateway for direct HL7 communication to EMR
- Defibrillator synchronization
- Ergonomic carrying handle and multiple mounting options offer unprecedented mobility
- Can Connect the EMR Wireless

Mindray Spectrum OR

With 8 selectable waveforms and 3 or 5-lead ECG, the Datascope Spectrum monitor supplies the features you need for critical patient care. A vivid 12.1" display comes with auto adjustable numerics and waveforms for optimal visibility. The standard graph and list trends with optional memory expansion of the Spectrum ensure comprehensive and convenient record keeping. Built for performance and function, the Datascope Spectrum is bundled into the compact and sophisticated monitor you need.

Overview: 8 auto-configurable waveforms • 3 or 5-lead ECG with respiration • 12.1" color high resolution display • Auto-set alarm function • Built-in power supply • Two trace thermal printer • Multiple NiBP • SpO2 • Temperature • Standard graph and list trends • Optional memory expansion

Condition	Refurbished
-----------	-------------

Passport 2 Anesthesia Monitor with 5 Gas Module

The Passport 2 makes monitoring simple. Rather than rummaging through layers of menus, there's a Navigator™ knob. For frequently used functions, there are quick-action keys. Three waveforms will automatically reconfigure to six when needed. Colorful numerics automatically re-adjust to maximum size for optimal display visibility. Be amazed at what a difference a truly intelligent interface will make. Who would have thought it possible? A monitor that actually provides more while requiring less.

Passport™ 2 patient color monitor features::

- ECG (3 or 5 lead)
- NIBP
- Masimo SpO2
- IBP
- Temp printer
- 5 agent analysis
- CO2
- N2O, O2.
- Includes patent cables, leads
