# Bladder Scanners

Order Now! Call 1-888-728-8448 Online [www.auxomedical.com](http://www.auxomedical.com)

We are pleased to announce that we can now service, repair and maintain your **anesthesia equipment!**

We are happy to provide you with solutions to best support your needs regardless of if they are biomedical, sterilization and now anesthesia.

# ANESTHESIA

## Biomedical & Sterile Processing

At Auxo Medical, we're always looking to expand our service and preventative maintenance capabilities to better serve you and keep your patients safe.

### Biomedical Equipment

We provide a full line of Biomedical preventative maintenance, repairs, and calibrations onsite to keep you operating under NFPA99 standards and AAMI recommendations.

### Sterile Processing

Our Specialty is sterilization and keeping your facility operating under joint commission standards.

We offer a variety of preventative maintenance programs that keeps your capital equipment running with little to zero down time.

We have the expertise to provide the equipment you need, the reliability to build a lasting relationship, and the responsiveness and services you need and expect.

## BladderScan BVI 3000

The BladderScan BVI 3000 is a portable, noninvasive ultrasound instrument that measures bladder volume. It is battery-operated, easy to use, and quickly provides accurate results. In less than five minutes, you can use the BladderScan BVI 3000 to obtain a precise reading of a patient's bladder volume. The BladderScan BVI 3000 supplies the information that caregivers need to diagnose, treat and manage urinary conditions.

The BladderScan has clinical applications in various disciplines, from private practice to acute and extended care. When you use the BladderScan, you can be confident that you're providing your patients with the best care available.

- Quick and accurate measurements
- Distinct scan modes for men and women
- Easy to use, learn, and teach; no sonographer required
- Compact console with LCD screen:
- Displays bladder volume and position
- Unique aiming icon guides the operator to optimal probe placement

Condition	Refurbished
-----------	-------------

## BladderScan BVI 9400

The BladderScan BVI 9400 is quick and easy to use. When the user releases the scan button, within seconds, BladderScan® measures ultrasonic reflections on multiple planes inside the body and produces a three-dimensional image. Based on this image, the BVI 9400 calculates and displays the bladder volume. No sonographer is required. BladderScan® BVI 9400 measurement information can be printed via an onboard printer or transmitted to your office or facility computer for viewing, printing or archiving using HIPAA-compliant ScanPoint® technology.

### BladderScan BVI 9400 Features

- Quick and accurate measurements
- Distinct scan modes for men, women, and small children
  - (Small children - Height: up to 48" (1.2m); Weight: 15-60 lbs (7-27kg))
- Easy to use, learn, and teach:
- No sonographer required
- Onboard video tutorial (4 minutes) to assist in training staff
- Precision aiming ability via console and probe
- Easy-to-use, ergonomically designed, handheld probe
- Compact console with:
  - Color LCD screen that tilts for easy reading
  - Brightness controls
  - Onboard printer for patient records or reimbursement
  - Savings calculator tracks instrument usage, urinary catheterizations avoided, and UTI costs saved
- Voice annotation for exams to ensure valuable patient/exam data is retained
- Can wirelessly upload exams to ScanPoint image management software for transfer to electronic health record systems (EHRs)
- Calibration and software upgrades may be performed online using ScanPoint
- Durable, reliable design
- Optional medical cart with locking wheel for easy mobility
- Battery charger and wireless hub for data transmission
- Two batteries provided for continuous use

Condition	Refurbished
-----------	-------------

## Verathon BladderScan BVI 9600

The BladderScan BVI 9600, with AortaScan® mode, is a portable 3D ultrasound instrument that quickly, accurately and noninvasively measures: urinary bladder volume (post-void residual (PVR)) and the diameter of the abdominal aorta.

Features:

- Helps diagnose urinary retention and post-op urinary retention (POUR)
- Evaluate many common urological problems
- Helps prevent unnecessary catheterisation which eliminates unnecessary trauma to patients
- Helps reduce rates of catheter-associated urinary tract infection (caUTIs)
- Helps differentiate between types of incontinence to determine care
- Helps monitor post-operative recovery
- Improves efficiency of health care professionals by reducing costs and saving staff time
- Provides a measurement of the abdominal aortic diameter to help physicians identify the presence of abdominal aortic aneurysms (AAA)
- Does not require a sonographer to take the measurement

Condition	Refurbished
-----------	-------------

## Verathon BVM 9500 BladderScan

The BladderScan BVM 9500 bladder volume instrument, with NeuralHarmonics® technology, is a portable, 3D ultrasound device that quickly, accurately and noninvasively measures urinary bladder volume, post-void residual (PVR) and bladder wall thickness in adults. Features:

- Quick and accurate measurements
- Distinct scan modes for men, women
- Easy to use, learn and teach
- No sonographer required
- Onboard video tutorial (4 min) to assist in training staff
- Precision aiming ability via Console and Probe
- Easy-to-use, ergonomically designed, hand-held Probe
- Compact Console with Color LCD screen that
