Order Now! Call 1-888-728-8448 Online [www.auxomedical.com](http://www.auxomedical.com)

We are pleased to announce that we can now service, repair and maintain your **anesthesia equipment!**

We are happy to provide you with solutions to best support your needs regardless of if they are biomedical, sterilization and now anesthesia.

# ANESTHESIA

## Biomedical & Sterile Processing

At Auxo Medical, we're always looking to expand our service and preventative maintenance capabilities to better serve you and keep your patients safe.

### Biomedical Equipment

We provide a full line of Biomedical preventative maintenance, repairs, and calibrations onsite to keep you operating under NFPA99 standards and AAMI recommendations.

### Sterile Processing

Our Specialty is sterilization and keeping your facility operating under joint commission standards.

We offer a variety of preventative maintenance programs that keeps your capital equipment running with little to zero down time.

We have the expertise to provide the equipment you need, the reliability to build a lasting relationship, and the responsiveness and services you need and expect.

## Stryker Smartpump Dual Channel Tourniquet

The SmartPump Dual Channel Tourniquet System continuously monitors and controls tourniquet pressure during surgeries. The system supports single and dual-channel options and can communicate with OR software systems. After surgery, this data can be printed and integrated with patient records.

The Stryker SmartPump Dual Channel Tourniquet System delivers complete operating room utility. It supports single cuff, Bier Block, and bi-lateral procedures, or simultaneous surgeries of both upper and lower extremity. The Dual Channel continuously monitors, controls, and displays real-time cuff activities. Each cuff's pressure and inflation time settings are independently managed.

Condition	Refurbished
-----------	-------------

## Zimmer ATS 2000

The built-in safety, reliability, and convenience of the A.T.S.® 2000 Tourniquet frees you to focus on surgery. Dual displays that monitor actual cuff pressure, precise microprocessor controls, and one-hour battery backup help assure patient safety. User-set alarms warn of unacceptable or hazardous conditions. The dual-cuff display is easy to read, even from a distance, and touch pad controls are simple to read and use. Fast cuff inflation and deflation save time. A large selection of cuffs, disposable and reusable, fits virtually all patients. The lightweight unit can be conveniently positioned, and positive-locking connectors have angled ports to keep lines clear of the surgical site.

Condition	Refurbished
-----------	-------------

## Zimmer ATS 1500

The Zimmer® A.T.S.® 1500 is an automatic tourniquet which has been found useful in producing a bloodless operating field in a surgical procedure involving extremities. It is indicated to temporarily occlude blood flow in the patient's extremities during a surgical procedure on those extremities.

Condition	Refurbished
-----------	-------------

## Zimmer ATS 3000

The A.T.S.® 3000 Automatic Tourniquet System is a dual-port, dual-cuff system with microprocessor controls and dedicated ports for supplying and measuring pressure independently. With the innovative Limb Occlusion Pressure (LOP) feature, the A.T.S.® 3000 Tourniquet combines the latest in advanced tourniquet technology with the well-established Zimmer® tradition of safety, reliability, and convenience.
